

Learn How to Select Best Cell Phone Plans

Description

The cell phone network industry is occupied by the big four national carriers: AT&T, Sprint, T-Mobile, and Verizon.

They occupy most of the customers that provide cellular connectivity to mobile phone and tablet subscribers. But there are mobile virtual network operators or MVNOs that share a minor part of customer share.

If you are using a cell phone, the company you pay phone usage bills for is either a network carrier or MVNO. MVNOs take the credit for giving fear of being a competitor that provides cheap cell phone brands. And hence, the big fours had provided their affordable cell phone plans when no choice was left.

All the major carriers provide their customers with low-cost cell phone plans. Fortunately, the big fours are in this category. Let us learn how to pick the best-suited cell phone plan for a month. Then, if you are a businessman or a monthly salary holder, you can enjoy the luxury of low-cost cell phone plans.

First, you need to understand that some cell phones are locked with a specific network while others are compatible. Therefore, we recommend you purchase a cell phone not locked with a particular network but compatible with multiple carriers. Only then will you be free to choose the plan you want.

Up to \$10 or less

You can get cell phone plans for \$10 or less, but you should know that such cheap plans are very short in number. For example, some companies show the tagline of \$10, but the cost becomes double after including the tax price and service charges.

However, we recommend three carriers that provide you with a good deal of \$10 offer.

1. [Tello](#) always backs you when you are low on budget and provides you with one of the best low-cost cell phone plans for a whole month. For \$10, you can create your custom cell phone plan, which includes unlimited calls, unlimited texts, and 1GB of internet data.
2. [RedPocket](#) is the only MVNO with a basic plan of \$10, offering 500 minutes, 500 SMS, and 500MB internet. It is the only MVNO that can connect you with any of the three big network carriers so that you can entertain yourself with the best service.
3. If your data usage is more minor, [US Mobile](#) is also a good option for you. It offers 500 call minutes, 300 SMS, and 100 MB internet. This plan also costs \$10 a month. You can have these and much more options for the best-suited cell phone plan when you purchase an unlocked mobile phone that supports multiple network services.

Up to \$20 or less

Though it may be a little expensive, you can enjoy a more extensive bundle and better service by slightly increasing your budget range.

1. US Mobile is the best choice for you as it offers you unlimited calls and texts with 12GB of 5G internet data at this price. You don't need to spend more bucks for international roaming.
2. This plan can be expensive, but you will find AT&T and T-Mobile backing it so that you can enjoy the luxury of solid network coverage. [Consumer Cellular](#) offers 250 minutes of calls, unlimited texts, and 50MB of data. Whereas if you are not satisfied with the bundle, you need to spend an extra \$5 to have unlimited calls and messages along with 500M of data.
3. The next date plan in the row offers uninterrupted data coverage and a discount on automatic

payments. You can choose a basic monthly cell phone plan from [H2O Wireless](#) which offers you unlimited text messages and calls and 2GB of internet on the AT&T network. Enjoy the solid network coverage for \$20 and have a \$2 discount on autopay!

Cell phone plans for \$30 or less

This category offers you a good deal of internet data and international calls at a low price.

1. If you are a frequent dialer, you should select this plan to make calls nationally and internationally. Ultra Mobile provides you with the best cell phone plan that offers 6GB of LTE or 5G internet on the T-Mobile network. However, if you select to pay in advance for 3, 6, or 12 months at once, you can have unlimited international calls and 6GB of internet data only for \$25 a month.
2. If you need more internet at a low price, you can choose Tello. It offers you 6GB of internet data along with unlimited calls and text messages on the T-Mobile network. However, if you are not satisfied and need more data, you can choose an 8GB data plan for only \$29 a month.
3. The list of best cell phone plans is continued. RedPocket offers you 10GB of high-speed LTE internet data along with unlimited calls and texts for \$30 a month. You can entertain with this service on AT&T or Verizon and, in addition, on T Mobile with 5G connectivity. It also supports international calling in over 80 countries.

Cell phone plans for unlimited internet data

If you are a heavy internet user, you need the best cell phone plans that offer unlimited data.

1. In the row, Visible offers us the best cell phone plan for unlimited data. You can enjoy unlimited calls, texts, and 5G internet date at \$40. Verizon network will provide the data service at up to 200Mbps.
2. Some cable companies also offer unlimited data plans at a low cost. You can access unlimited internet data at \$45 a month at Xfinity Mobile if you subscribe to Comcast Cable. Verizon provides internet service and reduces the speed after 20GB of usage. You can also choose Spectrum Mobile, which offers the same service.
3. Metro by T mobile offers a little expensive data plan. At \$50, you can have access to 5G unlimited internet for a month. However, with some extra dollars, you can also have access to 5GB of hotspot data. It provides you with 100GB Google one storage as well.

Final thoughts

Among many cell phone plans, you can choose the one that fits your monthly requirement and budget. The best cell phone plan for you is the one that meets your needs at a minimum price. You can roam further to see different other offers provided by these service providers on their website.
